

Medr National Measures for Higher Education Performance - 2022/23

Enquiries about Medr's National Measures should be directed to:

hestats@medr.cymru

This document contains institutional data used for monitoring progress on Medr's National Measures for HE performance.

A list of these measures can be found here:

[Annex B of HEFCW circular W18/30HE: National measures for higher education performance from 2018/19](#)

Information on data sources and how each measure is derived can be found in Medr's data requirements circular.

The latest information can be found in Annex I of this circular:

[Medr/24/01: Higher Education Data Requirements 2024/25](#)

What's new

The participation national measure has been updated with data for 2021/22 and 2022/23. For more information and the methodology please refer to our latest data requirements circular outlined above.

For widening access, part-time, student mobility, PGR, PhDs and transnational education national measures, UK totals have been updated to include student alternative data for 2015/16 to 2021/22. The original UK total line excluding student alternative data has been retained, and a new UK total has been added. This does not affect the participation national measure which has always included student alternative data in the UK totals.

For research income, and research council income the UK total line has been amended to reflect HESA Open data for 2019/20 and 2021/22.

Future changes

The retention National Measure is still currently based on data from the UK Performance Indicators (PIs) which were published by HESA for the last time in 2022. We are currently working on a methodology to enable us to update the retention measure.

Notes

General notes that apply to all or most measures are outlined below. For specific information relating to each measure please refer to the notes below each measure.

Data for FEIs is not available for all targets.

The following **data disclosure control policy** has been applied. This means that for all data relating to individuals:

- All numbers are rounded up or down to the nearest multiple of 5. Any number lower than 2.5 is rounded to 0. Halves are rounded upwards (e.g. 2.5 is rounded to 5).
- Percentages are calculated on unrounded data. Percentages calculated on populations which contain fewer than 22.5 individuals are suppressed and represented as ".".
- Totals are calculated on unrounded data and therefore may not appear to be the sum of the individual rounded data.

The **Data Futures** programme was implemented for the **2022/23 HESA student record**. There were difficulties with the return caused by delays to the functionality of the HESA Data Platform, late software updates, late supply of data quality rules by Jisc and other issues. This may have resulted in data quality issues which impact on student data based National Measures. We received several manual amendments to this data which has been included and noted in the footnotes of each measure where relevant. More information on the impact of the Data Futures programme on the quality of the 2022/23 student data is provided by HESA at the following link:

[HESA student record 2022/23 data quality report](#)

In most cases, data sources used in the National Measures do not reflect any notable impacts of the **COVID-19 pandemic**. Exceptions to this are student mobility experiences, the National Student Survey (NSS) and Graduate Outcomes (GO).

More information about the impact of the pandemic on GO data, the HESA student record and the NSS is available at the following links:

[The impact of the COVID-19 pandemic on Graduate Outcomes 2019/20 | HESA](#)

[The impact of the COVID-19 pandemic on Graduate Outcomes 2020/21 | HESA](#)

[The impact of the COVID-19 pandemic on 2020/21 Student data | HESA](#)

[The impact of the COVID-19 pandemic on 2021/22 Student data | HESA](#)

[National Student Survey 2020: Analysis of the impact of the coronavirus pandemic - Office for Students](#)

[NSS data: overview - Office for Students \(in key findings\)](#)

In August 2017 the **University of Wales** and the University of Wales Trinity Saint David approved a deed of union. As part of this undertaking, University of Wales also committed to bring to an end its historic model of validated programmes. All UW students are expected to complete by 2027.

Source: HESA Student Record

Notes:

Based on the HESA standard registration population.

Data are enrolments.

Undergraduate students only.

All modes, levels and years of study are included.

Welsh domiciled students are taken to be those with a Welsh home postcode.

The percentage of students domiciled in the bottom two or bottom one quintile of WIMD 2014 is out of Welsh domiciled students at the institution with known postcode.

Manual amendment provided by University of South Wales for all 2022/23 figures in this measure.

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

National Measures

2.Participation

The number and proportion of UK domiciled undergraduate entrants of all ages who did not leave within 50 days of commencement, studying higher education courses at HEIs and FEIs in Wales who are from UK low participation areas.

a) UK domiciled young full-time undergraduate entrants;

Institution	2017/18		2018/19		2019/20		2020/21		2021/22		2022/23

Source: 2017/18 to 2020/21, HESA widening participation performance indicators (table 1b, 2a and 2b); 2021/22 onwards HESA student record

Notes:

Full-time UK domiciled undergraduate entrants who did not leave within 50 days of commencement at HE providers and are from UK low participation areas

Part-time UK domiciled first degree entrants who did not leave within 50 days of commencement at HE providers and are from UK low participation areas

Low participation areas are defined using POLAR4

For more information on this performance indicator refer to the widening participation performance indicators

www.hesa.ac.uk/data-and-analysis/performance-indicators/widening-participation

Information on POLAR4 can be found on the Office for Students website:

<https://www.officeforstudents.org.uk/data-and-analysis/young-participation-by-area/>

Data for Scotland and Northern Ireland HE providers not included in the UK total in line with HESA publications

www.hesa.ac.uk/data-and-analysis/performance-indicators/definitions/polar2-and-polar3-data-scotland-applicable-11-12-13

www.hesa.ac.uk/data-and-analysis/performance-indicators/definitions/polar4-data-northern-ireland-applicable-11-12-13

Alternative providers have always been included in the UK total line.

Manual amendment provided for NPIC in 2022/23.

National Measures

1. Retention

The proportion of full-time undergraduate students in HEIs and FEIs in Wales who did not leave within 50 days of commencement and are present in higher education one year following year of entry for
a) UK domiciled students;
b) students domiciled in the bottom two quintiles of WIMD

plus, the proportion of part-time first degree students in HEIs and FEIs in Wales who did not leave within 50 days of commencement and are present in higher education two years following year of entry, for
c) UK domiciled students;
d) students domiciled in the bottom two quintiles of WIMD

a) Full-time undergraduate UK domiciled students;

Source: HESA Student Record, prior to 2016/17 Welsh FEI data from EYF

Notes:

- Based on the HESA standard registration population.
Data are enrolments.
All levels are included.
Data for 2015/16 for directly funded FEIs from HEFCW end of year monitoring survey.
Data for directly funded HE in FE at FEIs in Scotland, Northern Ireland and England taken from HESSES equivalent data collected in these countries.

Manual amendment provided by University of South Wales for all 2022/23 figures in this measure.

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

England	85	84	83	83	82	75	76		

Source: National Student Survey results for students registered at institutions

Notes:

Data for OU in Wales did not meet the publication threshold in 2016, 2020 and 2022 and therefore has been suppressed.

From 2023, students at English HE providers and the OU were not asked the overall satisfaction question in the NSS.
This means that from 2023 it is not possible to compare this national measure with the UK equivalent, or to include the OU in Wales in the Welsh sector figures.

The three year rolling average is calculated using annual scores rounded to 0 decimal places.
This is done for consistency with earlier years when the score was only available rounded to 0 decimal places.
This means that the three year rolling average may differ from data published elsewhere.

University of South Wales figures do not include data for Royal Welsh College of Music and Drama, which are calculated separately for the NSS.
Three year average data for Royal Welsh College of Music and Drama are:

- 86.3 for 2016 to 2018,
- 82.0 for 2017 to 2019,
- 78.0 for 2018 to 2020,
- 72.3 for 2019 to 2021,
- 71.7 for 2020 to 2022,
- 73.7 for 2021 to 2023,
- 77.3 for 2022 to 2024

National Measures

7. Welsh Medium

The number of students studying higher education courses at HEIs and FEIs in Wales undertaking

a) at least 5 credits

b) at least 40 credits

of their course through the medium of Welsh, per annum.

	Enrolments Studying 5 or More Credits						
	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23

Source: HESA Student Record

Notes:

Based on the HESA standard registration population.

Data are enrolments.

All modes, levels and years of study are included.

All domiciles included.

For 2022/23 data:

PGR student course session taught through the medium of Welsh (PGRLANGID = 01 and Z_LEVELGRP2 = 01)

Percentage of PGR student course session taught through the medium of Welsh (PGRLANGPCNT) > 0

Credits estimated - Z_STULOADSCS x 180/100

Welsh medium credits estimated - credits x PGRLANGPCNT/100

otherwise

Module taught through the medium of Welsh (MODLANGID = 01).

Percentage of module taught through the medium of Welsh (LANGPCNT) > 0.

Modules started in the current academic year and either contained within reporting year or continuing into next year (MODINSTSTARTDATE ≥ 01 August in AY) excluding modules continuing from previous reporting year CONTINUING ≠ 01.

Welsh medium credits - CRDTPTS x LANGPCNT/100

For 2021/22 and earlier data:

Module taught through the medium of Welsh (MODLANG = 1).

Percentage of module taught through the medium of Welsh (LANGPCNT) > 0.

Modules contained within reporting year or continuing into next year (MODSTAT in (2,3,)) i.e. excludes continuing from previous reporting year, taken in a previous reporting year outcome only (to avoid overcounting credits within actual year).

Welsh medium credits - CRDTPTS x LANGPCNT/100

Manual amendment provided for Cardiff University in 2016/17 and in 2018/19, and for Aberystwyth University, Bangor University and Swansea University in 2022/23.

National Measures

8. Student Mobility

The number and percentage of undergraduate students at Welsh HEIs taking up study, work and volunteering experiences abroad, for

a) all undergraduate students

b) undergraduate students domiciled in the bottom two quintiles of WIMD

a) all undergraduate students

Source: HESA Student Record

Notes:

Based on the HESA standard registration population.

Data are enrolments.

Undergraduate students only.

All modes and years of study are included.

This measure is applicable to HEIs only.

Manual amendment provided for number of all students on mobility experiences for Aberystwyth University, University of Wales Trinity Saint David and Swansea University in 2022/23.

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

National Measures

9. Quality

Outcomes of the QAA Quality Enhancement Review for each Welsh HEI and FEI being reviewed.

No. assessed in period

11

No. assessed in period with all judgements 'meets requirements'

11

Date last checked

14/09/2022

Notes:

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

In QER the review team will make two separate judgements, on whether:

- the requirements of the ESG Part 1 for internal quality assurance are met
- the baseline regulatory requirements of the QAF are met.

Judgement will be expressed as one of the following:

- meets requirements
- meets requirements with conditions
- does not meet requirements.

ESG - European Standards and Guidelines

QAF - Quality Assessment Framework for Wales

QER - Quality enhancement review

Frequency of reviews

Reviews should be carried out at least every six years. Governing bodies may commission them more frequently if they feel this would be helpful.

In addition:

Where an institution receives any judgement of 'meets requirements with conditions' it should undergo a further review within four years of the previous review, even if the judgement has been revised;

Where an institution receives any judgement of 'does not meet' it should be reviewed within two years of the previous review, even if the judgement has been revised;

Where an institution has undergone substantial structural change, eg through merger with another one, or becoming part of a group structure, then a new review of the whole institution should be carried out at the earliest date at when any of the constituent partners were due a review.

[Quality - Medr](#)

Bangor University was not assessed under the previous regime as it was the last to be assessed under the arrangements prior to that in 2012, and was subsequently the first to be assessed under the current arrangements. Bangor University received a successful outcome in the 2012 review with the following judgements:

Confidence can be placed in the soundness of Bangor University's current and likely future management of the academic standards of its awards.

Confidence can be placed in the soundness of Bangor University's current and likely future management of the quality of the learning opportunities available to students.

National Measures

10. OIA complaints

Total complaints (justified, partly-justified and settled) made against Welsh institutions to the Office of the Independent Adjudicator as reported in the OIA's annual report and annual statements.

Source: HESA Performance Indicators (PIs)*

Source: Graduate Outcomes survey

Notes:

The base population is the set of respondents who are classed as working, studying or both, or as unemployed and seeking work, and excludes those doing something "other" than work, study or unemployment.

Employment includes self-employed/freelance, running own business, voluntary or other unpaid work, or developing a creative, artistic or professional portfolio.

Data for UK institutions may differ to that published by HESA as currently Student Alternative Record data are not included in our figures.

Data for UK domiciled leavers exclude those leavers domiciled in the Channel Islands and the Isle of Man. This is in line with UK PI definitions, but differs from HESA Open data table definitions.

2016/17, DLHE data

Data for 2016/17 is from the HESA Destination of Leavers from Higher Education (DLHE) survey and relates to students domiciled in the United Kingdom, who graduated from a full-time or part-time course with an undergraduate qualification as defined by the DLHE survey population, who are surveyed **6 months after leaving**.

The reference dates for the DLHE return are for example for a leaver in 2016/17: 12 April 2017 (if the leaver obtained the qualification between 1 August 2016 and 31 December 2016) and 10 January 2018 (the leaver obtained the qualification between 1 January 2017 and 31 July 2017)

Data for FEIs was suppressed in 2016/17 employment PIs and is also suppressed here.

*2016/17 employment PI data used here is the sum of the employment PI for UK domiciled leavers graduating from full-time and part-time undergraduate courses.

The employment PI excluded data for combinations of mode & level where the response rate was less than 85%. This data is also excluded here.

2017/18 onwards, GO data

For 2017/18 leavers onwards, the Graduate Outcomes (GO) survey was introduced, surveying graduates **15 months after leaving**. This means that there is a break in continuity between 2016/17 and 2017/18 data, due to changes in survey methodology and length of time surveyed following completion of studies. Any comparisons between 2016/17 and 2017/18 should be **made with caution**.

The population is split into four cohorts and graduates are surveyed at different times of the year depending on the cohort they fall into. This is determined by when the graduate completed their studies.

For example, from the total population of 2018/19 leavers:

Students who completed their studies between 1 August 2018 and 31 October 2018 were surveyed in cohort A, commencing December 2019.

Students who completed their studies between 1 November 2018 and 31 January 2019 were surveyed in cohort B, commencing March 2020.

Students who completed their studies between 1 February 2019 and 30 April 2019 were surveyed in cohort C, commencing June 2020.

Students who completed their studies between 1 May 2019 and 31 July 2019 were surveyed in cohort D, commencing September 2020.

National Measures

12.Graduate Employment

The proportion of leavers from Welsh HEIs and FEIs who were working or working and studying who were working in a managerial/professional job **6 months** after leaving in 2016/17, and **15 months** after leaving in 2017/18 (and subsequent years).

Notes:

All levels, modes and domiciles eligible for inclusion in the DLHE included (DLHE excludes non-EU overseas).

The base population is the set of all respondents to the survey who are classed as working or working and studying.

Managerial or professional jobs determined where Standard Occupational Classification code begins with 1,2 or 3 (i.e. Managers and senior officials, professional occupations or associate professional and technical occupations).

Further information on Standard Occupational Classification is available on the HESA website:

<https://www.hesa.ac.uk/support/documentation/industrial-occupational>

2016/17, DLHE data

Data for 2016/17 is from the HESA Destination of Leavers from Higher Education (DLHE) survey and relates to students domiciled in the United Kingdom or the EU, who graduated from a full-time or part-time course with an HE qualification as defined by the DLHE survey population, who are surveyed **6 months after leaving**.

The reference dates for the DLHE return are for example for a leaver in 2016/17: 12 April 2017 (if the leaver obtained the qualification between 1 August 2016 and 31 December 2016) and 10 January 2018 (the leaver obtained the qualification between 1 January 2017 and 31 July 2017)

2017/18 onwards, GO data

For 2017/18 leavers onwards, the Graduate Outcomes (GO) survey was introduced, surveying graduates **15 months after leaving**. This means that there is a break in continuity between 2016/17 and 2017/18 data, due to changes in survey methodology and length of time surveyed following completion of studies. Any comparisons between 2016/17 and 2017/18 should be **made with caution**.

The population is split into four cohorts and graduates are surveyed at different times of the year depending on the cohort they fall into. This is determined by when the graduate completed their studies.

For example, from the total population of 2018/19 leavers:

Students who completed their studies between 1 August 2018 and 31 October 2018 were surveyed in cohort A, commencing December 2019.

Students who completed their studies between 1 November 2018 and 31 January 2019 were surveyed in cohort B, commencing March 2020.

Students who completed their studies between 1 February 2019 and 30 April 2019 were surveyed in cohort C, commencing June 2020.

Students who completed their studies between 1 May 2019 and 31 July 2019 were surveyed in cohort D, commencing September 2020.

National Measures

13. Continuing professional development

The total number of learner days delivered by Welsh HEIs for continuing professional development and continuing education, recorded on the HE-BCI survey.

Institution	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23
University of South Wales	64,105	70,891	73,926	52,223	27,084	22,434	24,203

Source: HEBCI survey

Table 2 - Sub-head 3f: Total learner days of CPD/CE courses delivered

Notes:

Figures may not sum exactly due to rounding

Excludes pre-registration courses funded by the NHS or TA

Contacts hours should be calculated using the assumption that one day is equivalent to one person receiving eight hours of teaching/training. For example 10 people attending a one-day course equals 10 person days.

The total number of contact hours should include lectures, tutorials, field study and supervised small group study periods.

Contact hours do not include individual study periods outside of the class or period of unsupervised practical work. For example a programme of study comprising of 20 one-hour meetings and 20 hours of unsupervised practical work would be returned on Sub-head 3f as 20 contact hours multiplied by the number of course participants.

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

National Measures

14. Total HE-BCI income per FTE of Academic Staff

The total amount of income recorded on the HE-BCI survey from collaborative research, consultancy, contract research, continuing professional development, facilities and equipment related services, intellectual property and regeneration and development, divided by FTE of academic staff.

Source: HESA Staff Record

Notes:

HESA staff contract session population

Excludes atypical contracts

FTE of all non-atypical academic contracts that are research only or both teaching and research and are active within the academic year

FTE is defined by the contract(s) of employment and is proportioned to each activity's cost centre.

STEMM - Science, technology, engineering, mathematics and medicine and dentistry

STEMM cost centres are 101 to 107 and 109 to 122

Non-STEMM cost centres are 108, 123 to 145

Non-academic cost centres are 201 to 206

A full list of cost centres which have been used since 2012/13 can be found here:

<https://www.hesa.ac.uk/support/documentation/cost-centres/2012-13-onwards>

Figures for all researchers may be larger than the sum of STEM and non-STEMM researchers. FTEs for the portion of any contract activity which has a non-academic cost centre are not shown.

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

National Measures

Source: HESA Student Record

Notes:

HESA student session population.

Data are FTEs.

Postgraduate research student FTEs only.

Postgraduate research students defined as those studying the following courses:

For 2022/23 onwards:

D0003 - Doctorate degree that meets the criteria for a research-based higher degree

D0004 - Credits at level D

D0005- Studying at level D, with formal or informal credit

L0000 - Masters degree that meets the criteria for a research-based higher degree

L0001 - Other postgraduate qualification at level L that meets the criteria for a research-based higher degree

L0002 - Credits at level L

L0003 - Studying at level L, with formal or informal credit

For 2021/22 and earlier:

D00 - Doctorate degree that meets the criteria for a research-based higher degree

D01* - New Route PhD that meets the criteria for a research-based higher degree

D90 - Provider credit at level D that can count towards a research-based higher degree

L00 - Masters degree that meets the criteria for a research-based higher degree

L80 - Other postgraduate qualification at level L that meets the criteria for a research-based higher degree

L90 - Provider credit at level L that can count towards a research-based higher degree

L91 - Visiting research students at levels D or L, with formal or informal credit

L99 - Research-based higher degree where the student may ultimately study at levels D or L

*Not a valid option in the HESA coding frame from 2017/18 onwards

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

Manual amendment provided for Cardiff University data in 2020/21

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

National Measures

20. PhDs awarded

The total number of PhDs awarded.

Institution	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23

Notes:

Qualifications obtained population

Highest qualification obtained is one of:

For 2022/23 onwards:

D0003 - Doctorate degree that meets the criteria for a research-based higher degree

For 2021/22 and earlier:

D00 Doctorate degree that meets the criteria for a research-based higher degree

D01* New Route PhD that meets the criteria for a research-based higher degree

*Not a valid option from 2017/18 onwards

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

National Measures

21. Research income

The annual percentage change in income from

a) Research in total; and

b) UK Research Councils

compared to the comparable figure for the UK excluding the 'golden triangle' of Oxford, Cambridge and certain London institutions

a) Total Research income £000s

Institution	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23

Source: HESA Student Record

Notes:

Based on the HESA standard registration population (plus incoming exchange students)

Data are enrolments

EU domiciled (excluding UK) is taken to be those students domiciled in the EU, but not the UK, the Channel Islands or the Isle of Man and includes incoming exchange students.

Overseas (excluding EU) is taken to be those students not domiciled in the EU, the UK, the Channel Islands or the Isle of Man and includes incoming exchange students.

All modes, levels and years of study are included.

This measure is applicable to HEIs only, excluding the Open University

Manual amendment provided by University of South Wales for all 2022/23 figures in this measure.

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.

Data for Scotland and Northern Ireland HE providers not included in the UK total in line with HESA publications

www.hesa.ac.uk/data-and-analysis/performance-indicators/definitions/polar2-and-polar3-data-scotland-and-northern-ireland-applicable-11-12-13

Source: HESA staff record

Notes:

HESA staff person population - includes those individuals who have one or more contracts that are active on 1 December within the academic year

Academic staff contracts only

Excludes staff who have only atypical contracts within the academic year

Data are full person equivalents. Staff can be apportioned according to the contracts they have which are active on 1 December. Therefore if a member of staff has two contracts, one academic and one non-academic the portion of their time spent on the academic contract is counted in the table above, and the portion of their time spent on the non-academic contract is excluded.

Totals exclude those with unknown nationality

In 2015/16, the University of South Wales undertook a contractual review of contracts for all staff members. This, together with data validation conducted alongside the introduction of a new HR/Payroll system, resulted in adjustments to contract terms and changes to the numbers of employees engaged on permanent or fixed term contracts. The figures for 2015/16 for University of South Wales above do not include these amendments, however figures published on the HESA website do include these amendments.

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

National Measures

29. Transnational education

The number and percentage of students that are transnational education students at Welsh higher education institutions

Source: HESA Aggregate Offshore Record, Student Record

Notes:

Transnational education (TNE) students data from the Aggregate Offshore Record (AOR)

TNE data is a count of students studying wholly overseas, students with more than one enrolment are counted once

All other students data from the Student Record

All other students based on the HESA standard registration population

All other student data are enrolments

All modes, levels and years of study are included

Although writing up students may be included in the AOR, we are unable to remove them as AOR data are aggregate.

This measure is applicable to HEIs only

Data for the OU are available at UK level only for this measure and therefore Wales-based activity cannot be reported

Between 2014/15 and 2018/19 student numbers at Oxford Brookes accounted for between 39% and 45% of the total population of the Aggregate offshore record. Following a change in reporting practices, this has dropped to 1% in 2019/20

Oxford Brookes changed their reporting practices for the 2019/20 academic year around which students they include in their Aggregate Offshore return. This led to a drop of 256,450 students this year for this provider, resulting in a significant drop to the overall number of student enrolments based wholly overseas.

From 2022/23 onwards it is not possible to identify alternative providers separately. A new total line has been added to include alternative providers for 2015/16 to 2021/22.
