Dear Dame Professor Lydon,

Welsh Government's Financial Support for Medr, the Commission for Tertiary Education and Research: 2026-2027

We wish to confirm an allocation of Higher Education Research Capital (HERC) funding of **£7,971,108** to Medr for 2026-27.

This funding will be paid in two instalments (August 2026 and December 2026/January 2027) and includes both Welsh Government and Department for Science, Innovation and Technology (DSIT) contributions. The funding allocation results in a revised total grant-in-aid budget of £1,031,160,108 for the 2026-27 financial year, as set out in Annex 1.

Medr will be aware that the Department for Science, Innovation and Technology (DSIT) has made changes HERC funding criteria by from 2026-27 requiring existing HERC funding only to be used for the maintenance of current facilities and not for the establishment of new facilities. From autumn 2026, investments in new research facilities will be competitively awarded by UK Research and Innovation (UKRI).

As well as changing the criteria for the HERC funding, the grant will be reduced over time whilst the competitive element awarded by UKRI will grow. DSIT has provided an uplift for the devolved governments to spread this reduction over a longer period.

The revised funding allocations in Annex 1 are provided for Medr to perform its functions held under relevant legislation, particularly the Tertiary Education and Research (Wales) Act 2022 as commenced. The funding is also provided to perform those functions it is exercising on behalf of the Welsh Ministers, as set out in the

Agency Agreement between Medr and the Welsh Ministers made under section 83 of the Government of Wales Act 2006.

The funding will be monitored against delivery. In accordance with the Framework Document, timely forecasts and monitoring information should be provided to officials, including prompt notification of any expected overspends and underspends. Ministers may adjust the grant in-year accordingly if required through the supplementary budget process. We expect Medr to continue delivery of its Strategic Plan, as approved by Welsh Ministers, and acknowledge the publication of a refreshed Operational Plan for the period commencing 1 April 2026.

We look forward to working with you and the Medr senior team.

Yours sincerely,

Anna Brychan AS/MS

Other Sources of Income

Under GOWA, the Welsh Government has a duty to report all other sources of income for all bodies within the central government boundary and to manage it within an overall income ambit control limit agreed by Senedd Cymru. To enable the Welsh Government to remain within this control total, the income which may be retained by Medr from other sources to fund activity during the year for revenue resource purposes is £50,000. This is not the tolerance limit for cash retained at the year end. Please inform your Partnership team if this income is expected to change during the financial year.

Terms and Conditions of Funding

The statement of priorities and framework document issued to the Commission for Tertiary Education and Research set out various operational requirements and refers to government guidance and policies with which the Commission for Tertiary Education and Research needs to comply, in addition to its own duties as responsibilities as a public institution in Wales.

Your Welsh Government partnership team is headed up by Claire Rowlands and your normal point of contact within the team is Craig Greenland:

craig.greenland@gov.wales.

A meeting with your partnership team will be arranged to agree appropriate oversight and monitoring arrangements.

Funding should be claimed in the manner agreed with the tertiary education funding team and funding claims should be submitted to Lisa Drury-Lawson:
